## **DETAILED ACTION**

### ***Terminal Disclaimer***

1. The terminal disclaimer filed on December 18, 2008 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 7,387,141 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Allowable Subject Matter***

2. Claims 7-9 (renumbered 1-3) are allowed. The following is an examiner's statement of reasons for allowance: the general manufacture of a pneumatic tire construction including a member attached to an inner surface of a tread is known, as shown for example by Block (US 1,773,681). Additionally, it is known to attach sound absorbing members (porous materials) to the inner surface of a tread. However, the prior art references of record failed to suggest, disclose, or suggest a pneumatic tire construction including the above noted porous member and further including a stretching mechanism comprising an elastic fixing band (metallic) having a width between 10 and 40 mm and a thickness between 0.1 and 0.5 mm.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
